

Large scale projects at the SMA

100 – 1000 hours of observing

Submitted Large Scale Projects

- 2013
 - Zhong Wang:
 - A Survey of Molecular Gas in Star-forming Galaxies Beyond Virgo
 - Shigehisa Takakuwa:
 - Unbiased Survey for (Pre-)First Core Candidates in the Perseus
 - Michael Dunham
 - MASSES: Mass Assembly of Stellar Systems and Evolution with the SMA
- Feb 2014
 - Eric Keto
 - Central Molecular Zone
- May 2014
 - Wei-Hao Wang
 - SMA Identification of the Entire Submillimeter Light
 - Chin-Fei Lee
 - $^{12}\text{C}/^{13}\text{C}$ Ratio in Evolved Star Envelopes: A new probe of binary systems
 - Hsi-Wei Yen
 - Linking Velocity and Magnetic-B field Analyses from Disks to Clouds
