EXPORT LICENSE DECISION TREE FOR SPACE/SAO

Are there any clauses that identify ITAR or export-restrictions?

Yes contact ECO

Is there equipment controlled under the ITAR or EAR (such as IR cameras, space optics and related software, "focal plane arrays, infrared detectors, deformable mirrors, space-qualified adaptive optics, radiation hardened electronics, digital signal processors, atomic clocks, etc.) that needs to be accessed by non-U.S. persons?

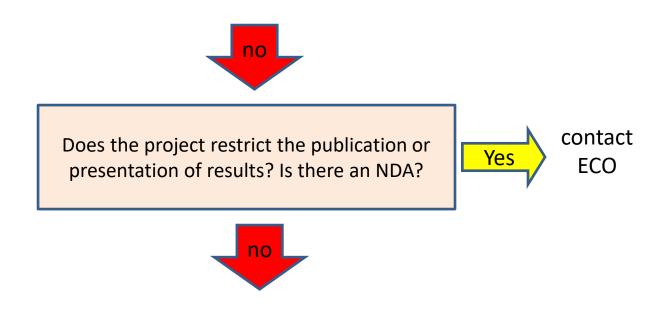

Will there be export-controlled data published or presented to non-US persons, e.g., technical data related to certain space instrumentation mounted on or used in satellites, certain ground-based instrumentation mounted on ground-based telescopes, data or software related to propulsion and control systems, etc.?

EXPORT LICENSE DECISION TREE continued

Does the award include foreign national restrictions? Any funding by foreign parties/gov'ts?

Is there any involvement with countries or persons from sanctioned countries:

Cuba, Iran, North Korea,
Sudan, Syria, Ukraine/Russia, or Venezuela?

Restricted – China?
